FOR IMMEDIATE RELEASE

****Doug Bielmeier Drops Fourth Album: "Music for Billionaires"****

Boston, MA - Composer, producer, and engineer Doug Bielmeier announces the release of his highly anticipated fourth full-length album "Music for Billionaires." This 7-track concept album is a fresh statement in the world of Indie Classical, Ambient Electronic, and Experimental Music. Building on the success of previous releases on SEAMUS, Ravello, and Albany labels, Bielmeier continues to straddle genres and connect with listeners worldwide.

Drawing inspiration from a series of chamber works written for and performed by two of NYC's most forward-thinking chamber ensembles, Hypercube and the Unheard-of//of Ensemble, "Music for Billionaires" explores the relationship between creativity and privilege in the contemporary music industry. Bielmeier addresses the effects of privilege, education, and experience on his creative output, emphasizing the significance of time, money, and experience in music creation, performance, and appreciation.

The album showcases Bielmeier's ability to create lush, immersive soundscapes that reveal the context and emotion often missing in modern computer and electroacoustic music. Traditional acoustic instruments ground Bielmeier's abstract soundscapes while creating another dimension of sonic possibilities.

"Music for Billionaires" features tracks like "Corporate Responsibility Pledge," performed by the Unheard-of//Ensemble, and "Burning Old Man Summer," performed by Hypercube, showcasing the composer's rich stylistic versatility. All tracks were composed, recorded, and mixed by Doug Bielmeier.

Track List:

1. Wells, ME - 5:32
2. Corporate Responsibility Pledge - 6:41
3. Burning Old Man Summer - 5:42
4. Throwaway Culture - 5:33
5. Widows Mite - 6:18
6. Slowdance84 - 5:00
7. CRP (West Coast Remix) - 6:02

"Music for Billionaires" will be available on New Focus Recordings on October 27, 2023. It is a must-listen for experimental music lovers, featuring innovative compositions that provoke questions about aesthetic and genre boundaries.
